

KZ PR1 (Balanced edition) earbuds with microphone

Indeks: **321646** Producent: **KZ Audio** Kod producenta: **PR1 balanced edition**

Cena: 453.86 zł

Opis

KZ PR1 (Balanced edition) earbuds with microphone

Producent: KZ Audio

Producent: KZ Audio

Słuchawki douszne KZ PR1 - Nowy napęd dwukomorowy z membraną płaską. Wielki przełom w akustyce: 13,2 mm napęd membrany płaskiej, wymienna konstrukcja wtyczki, proces wstawiania metalowych wstawek. Główne cechy KZ PR1: Membrana nanoskalowa, Dwie wersje strojenia do wyboru, Pokrywa ze stopu aluminium, Wygodne noszenie, Inteligentna kontrola linii, Kompatybilność 2 - Pin. Inteligentna kontrola linii, mikrofon HD-Call: KZ PR1 ma wbudowany mikrofon o dużej czułości dla wysokiej jakości rozmów. Jeden przycisk kontroluje odtwarzanie/pauzę, poprzedni/następny utwór i asystenta głosowego.

Nowo opracowany dwukomorowy napęd płaski 13,2 mm: KZ PR1 jest wyposażony w nowy napęd płaski, a odpowiedź na wysokie i ultrawysokie częstotliwości jest znacznie lepsza niż w tradycyjnym balansowanym napędzie armaturowym i dynamicznym. Zastosowano ultracienką srebrzoną membranę i niezależne komory akustyczne układu dwustronnego układu magnetycznego N55. Ta jednostka zapewnia szybkie i precyzyjne odpowiedzi oraz delikatne i przejrzyste dźwięki. 4 powody, dla których warto wybrać KZ PR1: Niski współczynnik zniekształceń, Szerokie pole dźwięku, Doskonała elastyczność, Lepsza odpowiedź dynamiczna.

- In-ear headphones
- KZ PR1 - New Dual-Cavity Planar Diaphragm driver. The great breakthrough in acoustics: 13.2mm planar driver, replaceable plug design, metal inlay process. Core Highlights of KZ PR1: Nanoscale Diaphragm, Two tuning versions to choose, Aluminum alloy cover, Comfortable to wear, Smart line-control, 2 - Pin socket. Smart line-control, HD-Call Microphone: KZ PR1 has a built-in high-sensitivity microphone for high-definition call quality. One button controls play/pause, previous/next song, and voice assistant.
- Newly developed 13.2mm dual-cavity planar unit: KZ PR1 is equipped with a new planar unit, the high frequency and ultra-high frequency response is far superior to the traditional balanced armature and dynamic unit. It adopts an ultra-thin silver-plated diaphragm and independent acoustic cavity of the N55 double-sided magnetic circuit array system. This unit brings fast and accurate responses and gentle and transparent sounds. 4 reasons to choose KZ PR1: Low distortion rate, Wide sound field, Excellent ductility, Better transient response.
- Exquisite shape. Full of ingenuity. KZ PR1 adopts a hollowed-out aluminum alloy cover with a transparent black resin cavity. KZ PR1 Hi-Fi Edition adopts a higher-cost electroplating bottom shell, with the dual advantages of lightness and metallic texture. Precision structure. Strict quality selection. Each component is uniquely designed to maximize the performance of the planar unit. Strictly control the quality of products and maintain product consistency.
- We committed to tuning, just for pure good sound: The senior tuner team has fine-tuned the three-frequency connection ratio thousands of times, bringing the acoustic crystallization of the frequency response curve with clear layers. Comfortable and stable to wear: In-ear design, 45° inclined into the ear, 270° fit the auricle, allowing you to

enjoy the beauty of music comfortably. Upgraded 2 Pin plug design: 0.75mm standard gold-plated plug, widely applicable to 2 Pin cable. You can change the cable of KZ PR1 freely to increase the cable's service life and expandability.

- **technologia łączności:** Wire 3.5mm jack, Wire 3.5mm jack
- **wersja dla kraju:** PL
- **zawarte komponenty:** Headphones, Different sizes of plugs
- **impedancja:** 16 ohm
- **Nazwa modelu:** KZ PR1 (Balanced edition) earbuds with microphone
- **opis przedziału wiekowego:** dla dorosłych
- **obudowa słuchawek:** Douszne
- **punkt znaku wypunktowania:** In-ear headphones, KZ PR1 - New Dual-Cavity Planar Diaphragm driver.
