Opis

LELIT Kate PL82T, prosumer coffee machine

Producent: Lelit

- **PRODUCT DESCRIPTION:** Kate represents the perfect union between aesthetic and functionality. Its appliance body combines a high-quality coffee machine ready in a few minutes and a professional coffee grinder, everything in a very small space
- **PRODUCT FEATURES:** LELIT58 (58.55 mm), 3 ways solenoid valve to dry up the coffee puck, LCC with high-resolution OLED graphic display, graphic indicator for lack of water in the tank and "Reserve mode", possibility to activate automatic purge/preinfusion/stand-by/washing cycle, possibility to disable steam boiler, programmable brewing time for coffee doses, coffee temperature, water and steam indicated in °C/F, back-lit manometer for coffee pressure, brushed stainless steel appliance body with drip tray and wire grate, wide cup warmer, back-lit stainless steel buttons, multidirectional anti-burn steam wand, fixed hot water wand, mug friendly
- **SETTABLE PARAMETERS:** The LELIT electronic control system (LCC) with the OLED graphic display allows to activate the preinfusion, the automatic washing cycle and to set the temperature of coffee, water and steam, and the brewing time for 1 and 2 doses. Moreover, it indicates the lack of water in the tank and automatically activates the "Reserve mode"
- **TECHNICAL INFO:** Kate is equipped with an integrated coffee grinder with Ø 38 mm conical burrs that guarantee constant and precise grinding thanks to the stepless micrometric adjustment that can be regulated via the side knob. The external bean hopper prevents them from overheating, ensuring better extraction
- **FOR A PROFESSIONAL BREWING:** The manometer with black back-lit display checks coffee delivery pressure: the green area, between 8 and 12 bar, indicates the optimal value and allows you to understand if the phases prior the brewing have been correctly executed
- **STEAM AND HOT WATER:** The multidirectional wand with anti-burn handle delivers hot water and steam, for a foam like the bar. Both water and steam functions can be activated by the front buttons and adjusted by the side knob
- **EXCLUSIVE COFFEE-SLIDE:** Filterholder with Coffee Slide spout designed to avoid the contact with the worktop, the gradual inclination of the handle guarantees stability during the pressing
- **PERFECT WITH:** The appliance body is entirely made of stainless steel, a material that ensures extreme resistance to corrosion and heat. The 300 ml boiler is made of brass and guarantees durability
- **MADE IN ITALY:** All LELIT products are entirely designed and made in Italy using professional technology and components
- **DELIVERED WITH:** LELIT58 2-ways filterholder with design handle and Coffee Slide spout, LELIT58 1 dose filter (7-9 g), LELIT58 2 doses filter (14-18 g), LELIT58 blind filter, tamper and spoon for coffee powder, 35 l water softener filter, cup rack
- **zawarte komponenty:** Sitko z 2 wylewkami Coffee Slide, z designerskim uchwytem LELIT58, 1 puszka LELIT58 7-9 gr filtr, 2 puszki LELIT58 14-18 gr filtr, LELIT58 filtr kryjący, Tamper, Łyżka do kawy mielonej, Filtr do wody 35 l, Podwyższenie filiżanki do espresso
