Opis

MoKo Remarkable 2 Pen with Eraser, EMR Stylus Pen with 4096 Pressure Levels, Palm Rejection, Tablet Pen with 3 Extra Tips for Remarkable 2&1/Galaxy Tab&Book/BOOX/Wacom/Scribe and other EMR Devices

Producent: MoKo

Zanurz się w kreatywnym procesie dzięki precyzyjnemu rysikowi MoKo Remarkable 2 z gumką. Dzięki 4096 poziomom nacisku, funkcji odrzucania dłoni i czujnikowi pochylenia, ten rysik EMR zapewnia doskonałą kontrolę i precyzję. Dodatkowo, gumka na końcu rysika ułatwia korygowanie błędów bezproblemowo. Bezproblemowe pisanie, rysowanie i projektowanie na wielu urządzeniach nie było nigdy tak przyjemne i intuicyjne!

Rysik MoKo Remarkable 2 jest kompatybilny z szerokim zakresem urządzeń EMR, takich jak tablety Remarkable 2, Remarkable 1, Samsung Galaxy Book, Galaxy Tab, BOOX, Wacom, Kindle Scribe i wiele innych. Dzięki technologii elektromagnetycznej bez potrzeby ładowania, przełączania czy łączenia przez bluetooth, możesz natychmiast przystąpić do pracy z tym rysikiem.

Odkryj łatwość i precyzję dzięki rysikowi MoKo Remarkable 2 z gumką. Zaprojektowany z myślą o profesjonalistach i miłośnikach sztuki, ten rysik zapewnia niezrównaną jakość pisania, rysowania i projektowania na urządzeniach cyfrowych. Poczuj swobodę i kreatywność dzięki temu innowacyjnemu narzędziu!

- **【Wide Compatibility】** : Designed to be compatible with a wide range of EMR devices, including Remarkable 2 tablets, Remarkable 1 tablets, Samsung Galaxy Book, Galaxy Tab, BOOX, Wacom, Kindle Scribe, etc. The Remarkable 2 pen delivers excellent performance and seamless compatibility across multiple platforms. Please check if your device supports EMR technology firstly.
- **【EMR Support】** : The EMR stylus pen operates through electromagnetic induction technology. It can work right out of the box. There is no need for switching, charging, bluetooth pairing and other complicated setup procedures. You can simply pick up the pen and use it wherever and whenever you want.
- **【4096 Pressure Sensitivity】** : With 4096 pressure level, the EMR stylus for Remarkable 2 supports more precision

and control, allowing you to make complex scratches and draw on your digital devices like writing with traditional pens. Perfect for writing long texts, making complex sketches, and drawings.

- **【Palm Rejection & Tilt Sensor】** : The enhanced EMR technology recognizes only the tip of the pen and ignores the palm. Your hand can rest at any position on the screen without affecting your writing, helping you find the most comfortable writing posture. With tilt sensor, the digital pen works perfectly at any angle you tilt it, making it easier for you to tackle more complex drawing tasks.
- **【Eraser Function & Replacement Nibs】** : The end of the stylus adds the convenience of an eraser, making it convenient for you to easily erase the lines and letters simply by flipping the pen upside down. The 3 replaceable nibs are made of high-quality ABS and PC material, which are not only durable but also screen-friendly.
