Zdjęcia

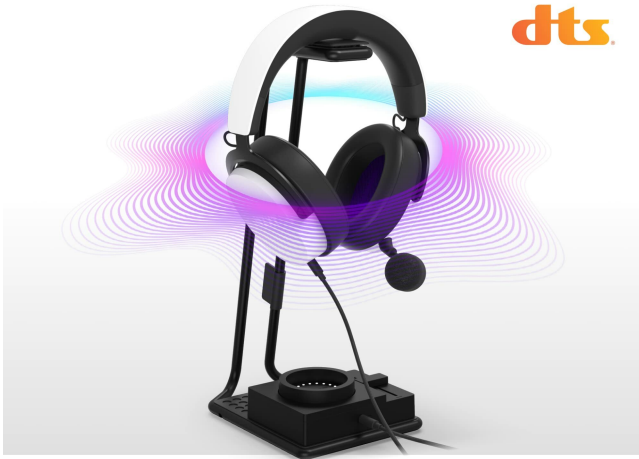

SEAMLESS SWITCHING

Instantly switch between headset and PC speaker audio output by placing or removing a headset from the stand.

MIX & MATCH

Fade between in-game and voice chat audio with the slider, and control volume and mute with the wheel.

DTS 7.1 SURROUND SOUND

Supports DTS 7.1 surround sound on compatible devices to simulate in-game spatial audio in a 3D environment.

CUSTOMIZE WITH CAM

Choose preset gaming sound modes, or configure settings like EQ, surround sound, and RGB lighting.
