Smart And Simple Installation

Front
Back
Side

1. Before installation, place the product on the watch to gauge the placement. Once ideal position has been chosen, remove and clean the watch from all debris.
2. Carefully remove the protective sticker from the product by pulling on the tab. Please be mindful of not leaving oil from fingerprints or debris on the adhesive.
3. While holding the sides, firmly install the product on the watch and press down on all sides to ensure it has been securely attached.

- Product is not reusable and may be damaged, if removed. Confirm ideal placement before installation.
 - Brief exposure to humidity will not affect the product but immersion will risk the product becoming detached.
 - Be mindful to avoid excessive pressure directly on the product as it may lead to the product being distorted.
